 M. Rachuba Primary Examiner Art Unit: 3723 <i>12/17/05</i>		

Continuation of 11. does NOT place the application in condition for allowance because: the examiner does not agree with applicant's analysis of Hykes et al. Applicant is correct in that the grinding step includes beginning grinding with the predetermined grinding wheel, simultaneously grinding with the predetermined wheel and second wheel (figures 5 and 6) and terminating grinding of the predetermined wheel (figure 7). Applicant has not claimed, at least in claim 1, that the predetermined grinding wheel remains in contact with the grinding portion after termination of grinding. This limitation is found in objected to claim 6. Applicant may overcome the rejection of claims 1-5 by amending claim 1 to contain the subject matter of claim 6. .
